ApeosPort-IV 5070 / 4070 / 3070

Digital Black and White Multifunction Device

Raise your productivity. Reduce costs.

Stay secure

A better way to get work done

Engineered to make your workgroup more productive. The ApeosPort-IV 5070 / 4070 / 3070 series multifunction devices provide the right tools for the work you do every day, plus advanced capabilities that help you work smarter, cost-effectively and more securely.

The ApeosPort-IV 5070 / 4070 / 3070 series features an open architecture technology that enables personalised and customised document management solutions you can access right from the device's touch screen. These applications can leverage your existing infrastructure and databases, and meet your specific business challenges.

Features at a glance

- Print and copy speeds of up to 35 / 45 / 55 ppm to keep up with even the busiest environments
- Improve the way you work with full colour scanning
- Fax solutions available, including walk-up, Internet Fax and IP faxing
- Innovative 9-inch, colour user interface
- Open architecture technology enables personalised and customised document management solutions

1
Optional
Wing Table

2
Optional
Stand

3
Four 500-sheet paper trays
adjustable up to A3

4
Optional integrated
stapler finisher

Environmentally sound

The ApeosPort-IV 5070 / 4070 / 3070 series delivers cutting-edge reductions in energy consumption.

Low energy consumption. The ApeosPort-IV 5070 / 4070 / 3070 series consumes less power in standby, low power and operating modes, resulting in greater energy savings in the office.

Smart Energy Management Technology. Our innovative new Smart Energy Management Technology better manages energy usage by only using what is necessary, when it's necessary. With this new technology, the user interface is ready in just 2 seconds. It's all about using energy only when it's needed – but retaining convenience too.

Power LED Scanner. The LED technology used as the light source for image scanning consumes less energy and gives you ultra-quiet operation.

5

Choose basic features like staple and hole punch (optional), or advanced capabilities to produce saddle-stitched booklets (unfolded)

6

2,000-sheet A4 High Capacity Feeder (optional) can increase total capacity to 5,050 sheets

7

High Capacity Tandem Tray holds up to 3,000 sheets

8

This high performance finisher features automatic stapling, hole-punching, folding and booklet making.

Optimised office efficiency

The highly modular ApeosPort-IV 5070 series multifunction devices give today's fast-paced office environments a critical productivity advantage. The tasks you perform daily become more efficient, while intensive workplace processes are optimised with customisable workflow solutions that easily handle your unique business requirements.

Dramatically increase your workflow efficiency. Cutting-edge scanning functionality opens the door to better ways of getting work done. Scan to Email quickly distributes documents to multiple email addresses. Store files on the device, or in a personal directory. You can also scan documents to network folders, FTP sites and fax servers right from the device.

Scan to Folder feature allows you to scan to a folder on the printer's hard drive to reprint on demand or retrieve via a web browser. Documents stored on the hard drive are displayed as thumbnails and up-close previews on the device touchscreen.

Easy archiving, organising and searching. With scan to searchable PDF*, you can create a fully text-searchable file and integrate it into your workflow process in one easy step.

*Optional Searchable PDF Kit is required

Significantly smaller scan files. The latest scan-export compression technologies reduce traffic on the network and accelerate document delivery.

Introduce new workflows or automate repetitive processes within the office environment by automatically routing documents to predefined locations at the touch of a button.

The speed you need. With ultra-fast copying and printing — choose from 35 ppm up to 55 ppm — there's more than enough speed to meet the needs of any busy department or workgroup.

Multitasking mastery. Scan a job while another job prints. Send a fax while making copies. The powerful 1.2 GHz Freescale processor concurrently processes all jobs received, and performs multiple tasks simultaneously.

9-inch, colour touch screen interface. Provides the comfortable look and feel Fuji Xerox is known for and features bright, intuitive icons and easy access to all major functions directly from the home screen.

Less user intervention means less downtime. More efficient toner lasts longer and can be replaced quickly by any user.

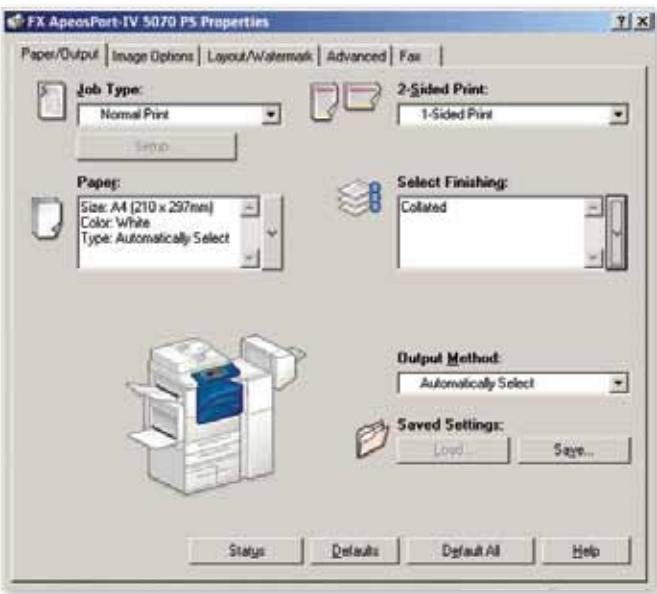

Advanced copy and print features. Plenty of support for specialised print applications, such as Annotation, Bates Stamping, ID Card Copy and tab print capability.

Walk-up simplicity. Print from and scan to any USB memory device for faster document delivery when you're not at your computer.

To speed up copying and faxing an express (simple) copy and fax feature is available that displays only the basic settings. This is provided in addition to the normal features.

WHQL certified PCL and PostScript print drivers* provide a consistent, easy-to-use interface for end-users that can greatly simplify your printing operations.

*WHQL certified drivers will be available from the end of August 2011.

A truly universal print driver. Xerox Global Print Driver® lets IT administrators install, upgrade and manage Fuji Xerox and non- Fuji Xerox devices from a single driver. It provides a consistent, easy-to-use interface for end-users, reducing the number of support calls, and simplifying print services management.

Customise your print driver settings for economy and efficiency. For example, set two-sided printing or choose N-up for printing multiple pages on a single sheet as your default.

Save time by storing the settings of frequently printed documents as favourites in your print driver. Settings include paper sizes, covers, duplexing, finishing and more.

Extensive fax capabilities. Network server fax enablement, Internet fax enablement (to avoid long distance charges), walk-up fax with LAN fax and IP faxing. With fax forward to email feature, incoming faxes can be automatically routed to any valid email address, device folder or network folder to save paper and speed retrieval.

IP faxing or FoIP offers a more cost efficient way of doing business. Faxes are sent and received through an IP-based network such as the internet. Faxes can be routed directly to an email account to conserve on energy and paper.

- 1 USB memory slot (optional)
- 2 Menu button
- 3 9" colour user interface
- 4 Authentication button
- 5 Status display LEDs
- 6 Power-saving button
- 7 Main power LED

Reporting and management tools

CentreWare™ Internet Services software makes it easy for administrators to configure the device, upload address books, monitor usage and consumables remotely and establish auditing capabilities.

Manage colour printing to minimise costs. Control costs by nominating when colour could be used and by whom. This ensures that colour is available to those individuals who truly leverage its power - such as the sales teams and marketing department.

Driverless printing for remote users with CentreWare Internet Services web utility. Any connected computer can immediately output PDF, TIFF and PRN files from any network computer, without using a print driver at all.

Device Setup Tool allows for simplified device configuration and administration, and lets you easily clone configurations to other similar devices on the network.

Security at every level

Secure Print helps prevent unauthorised viewers from seeing documents by holding jobs in the print queue until the user is authenticated.

Image Overwrite security feature clears or “overwrites” all trace of any document image data remaining on the hard drive after a print, copy, scan or fax job (when enabled).

Hard disk encryption helps ensure that unauthorised users can’t access stored documents.

IPv6 support includes full enablement of the new IPSec standard.

An internal firewall provides an additional measure of security, providing IP filtering, domain filtering and port blocking.

Network authentication restricts access to scan, email and network fax features by validating user names and passwords before use. Audit Log capabilities let you know who sent what, when.

Extending your capabilities with Apeos Solutions

The transfer of knowledge, data and communication of information is critical to the efficiency and productivity of business today. The office employee also demands true 'ease of use' to ensure this knowledge is distributed efficiently and securely within the business.

Image Gateway for Apeos is the platform delivering integrated office solutions and provides additional capability to enhance your Enterprise productivity, security, streamline processes and reduce costs. Capabilities include: Cost Recovery, Secure Device Authentication via Card ID, Scanning directly into Enterprise Content Management Systems, Rules & Routing, Secure Fax and Workflow.

Cost Recovery – ACCRU

- Secure Release via Card ID/PIN and Cost Recovery of all Print, Copy, Scan and Fax jobs
- Disburse and control print related costs to users / departments and cost centres
- Enterprise level reporting
- Active Directory authentication and SSL Encryption to ensure security

Scan to and print from EDMS

- Tight integration to supported ECM systems with search capabilities providing process improvements and security
- Consolidation of document storage and retrieval
- Collaboration, create, share and review content
- Streamline resource intensive processes with the ability to preview and retrieve documents via the user interface

Image and data capture

- Support for batch scanning (including blank page recognition)
- Extended output file formats and destinations such as Word, Excel and high compression PDF
- Minimise information leakage through MyFolder and MyEmail

Fax communication

- Access the internal fax server module of or connect to the external RightFax server (including support for FoIP)
- Desktop faxing capability
- Follow me faxing (available with ACCRU)
